

May 17, 2022

Hello Store Managers and Stores,

We've heard you! Based on the feedback you provided, we have made updates to your AOR pages to help better support you.

What you need to know

- To help personalize each role and drive ownership in your store, the KC homepage now shows the employee's name for each AOR, based on your levels list.

NOTE: If names are displayed incorrectly or employees are missing, please work with your Regional Staff to update your levels list.

Some of the changes you will notice include:

- A simplified look and feel of the page.
- Dedicated focus on DTMS tools and Areas of Responsibility.
- Duplicate links have been removed.
- Relevant content from the Helpful Links and Best Practices section can still be found on the appropriate Leadership Responsibilities pages.

Our ask of you

- Please take some time to review the updated layout of your AOR page.
- Each month, continue to utilize your AOR pages to assess your gauges using the DTMS tools, identify improvement opportunities, and drive execution in your store.

If you have any questions, or to provide feedback, please use the Feedback button on your AOR page.

Thank you for striving to be the BEST!
