The Ready for Winter promotional advertising support will run in winter markets throughout the season.

Winter Stopping Board

The new Stay Safe with Winter Tires boards are currently being shipped. Please display these as soon as possible.

The board illustrates the stopping distance between winter tires and all-season tires at 30 MPH in snow.

Main Takeaway – Even a “Good” winter tire outperforms a “Best” all-season tire.

Thank you for striving to be the **BEST** and ensuring we have a successful Winter Tire Season!
