

# Portfolio Steering Committee Structure and Process

May 2023

# PSC STAGE GATE STRUCTURE

During 2022 it became apparent that having a single group responsible for approving projects to proceed does not provide us with the speedy decision making needed.

The **objective is to push down decision making to the leadership teams closer to the projects and to provide a speedier path to approvals**. The Enterprise PSC (EPSC) aligned on creating 4 Strategic Pillar PSCs:

- OMNI
- Partnering & B2B
- Strengthen Fundamentals (Business): Finance, People Care, Product, OQ, RECL, Risk, SBS & Store Ops
- Strengthening Fundamentals (IT)

The **role of the EPSC is the overall governance of the enterprise portfolio**, it will meet monthly with a standing agenda:

- Stage Gate Review for any XL project moving from Study to Research or Plan to Implement.
- Update on 2023 Portfolio Financials
- Update on all 2023 Portfolio Change Requests (this includes any changes to any projects budget, scope and/or schedule)
- Review of the overall Portfolio performance and enhancement hour burndown update

# PSC STAGE GATE STRUCTURE – APPROVED BY EPSC

PSC	Enterprise (EPSC)	Fundamentals	New Revenue & B2B	OMNI	IT
AOR(s)	Top 6 XL Projects & overall portfolio performance	Finance, People Care, Product, OQ, RECL, Risk, SBS & Store Ops	New Revenue segment	OMNI segment	IT segment
Frequency	Monthly for 90 minutes	Monthly for 60 minutes	Monthly for 60 minutes	Monthly for 60 minutes`	Monthly for 60 minutes

Not functioning as outlined, see next slide

# WHERE DO WE STAND TODAY?

- OMNI and IT have put in place their monthly Strategic Pillar PSC meetings.
- The PSC meetings for the Fundamentals area is not implemented the way we outlined, instead project stage gating has been incorporated into the 7 IT/Business Segments Book of Business meetings instead.
- The PSC meetings for the New Revenue/B2B area is not implemented in the way we outlined, instead the project stage gating happen via email or in adhoc meetings scheduled by Justin Replogle.

# PSC PROCESS

Firstly, there are no additional steps this year, the only change is to have some projects oversight pushed down to the segments to allow for a speedier approval process.

## **Pre-PSC Approval Process:**

All projects on the Portfolio will follow the standard processes for Financial Reviews and approvals. The objective of this is to ensure complete alignment amongst both the Projects Leadership, Finance and IT before the project is presented to the appropriate PSC for approval to proceed. This means that the full PSC Deck and FJW must be reviewed and approved by the following before it is presented to the appropriate PSC:

- I. Project Executive, Business Owner, Technology Owner, and Delivery Manager are active participants in the development of the deck, the Project Manager must ensure they are aligned that the deck is complete and ready to move onto the final reviewers.
- II. Reviewed with Maria Claros - Business Owner, Technology Owner and Project Manager attend.
- III. Reviewed with Wayne Haughey - Business Owner, Technology Owner, Project Manager and Maria Claros attend.
- IV. Sent to Gary as an FYI
- V. Reviewed with Andrew Haus - Business Owner, Technology Owner, Project Manager, Maria Claros and Wayne Haughey attend.

# DO YOU PRESENT TO THE EPSC OR sPSC

The EPSC is the location for Stage gate and Change Request approvals for **all of the XL projects**. Note – XL projects is not the same thing as the top 6 initiatives, it is any project that falls into the XL project size (over 15,000 hours). Therefore, by XL projects, this specifically means:

- I. Project Vision
- II. Project Accelerate
- III. From the CXVS Program:
  - 1. Contact Center
  - 2. Universal List
  - 3. Single Check-In
  - 4. Theme 1 – all 3 initiatives
  - 5. Single DT Website
- IV. KC Platform Migration
- V. From the DT-TR Program:
  - 1. DT-TR Drop Ship
  - 2. Consolidated Salesforce CRM
- VI. From the IT Operational Readiness Program:
  - 1. Modern Architecture Cloud Migrations
  - 2. Data Center Refresh
  - 3. NextGen Network
  - 4. Teams VOIP
- VII. SAP Cloud Migrations – all 3 initiatives
- VIII. Payment: Implement Auth/Capture
- IX. Fleet: BOPIS for Fleet
- X. Merchandise and Assortment Planning
- XI. Payment: Buy Now Pay Later(BNPL) Integrated Service (Synchrony)

**Note: Projects could be added or removed from this list during the year, as scope & effort hours are fully flushed out.**

**All other projects on the 2023 Portfolio** will go to their appropriate Strategic Pillar PSC Meetings for Stage gate and Change Request approvals.

# EPSC MEETING DETAILS

- A. Monthly, for 90 Minutes.
- B. Presentations are to be sent to John McPherson by 9am on the Wednesday prior to the EPSC Meeting. This email should include the names of all of the people to be invited to present. Ideally the presentation should be led by the Project Executive.
- C. Use the standard template at the end of this deck for the Project Update
  - I. **Ensure that the deck has no animations or transitions**
  - II. **If this is a Stage Gate Request, then ensure that the full Stage Gate PSC Deck for the project is in the Appendix. The intent is that members of the EPSC will review the complete deck prior to the meeting and come prepared with their questions.**
  - III. **If this is a Change Request, then ensure the full Change Request form and any supporting materials are in the Appendix (Key Decisions, updated FJW, etc).**
- D. John McPherson will consolidate all presentations into a single deck and send to Wayne Haughey and Gary Desai by EOD on the Wednesday prior to the EPSC Meeting.
- E. Feedback will be provided to the Project Team, from John McPherson, with any requested edits.
- F. The presentation deck is to be finalized by Noon on the Friday prior to the EPSC meeting and emailed to the EPSC members by EOD.
- G. EPSC Meetings take place in the Boardroom and are in person meetings.

# PROJECTS ON THE PORTFOLIO CAN START:

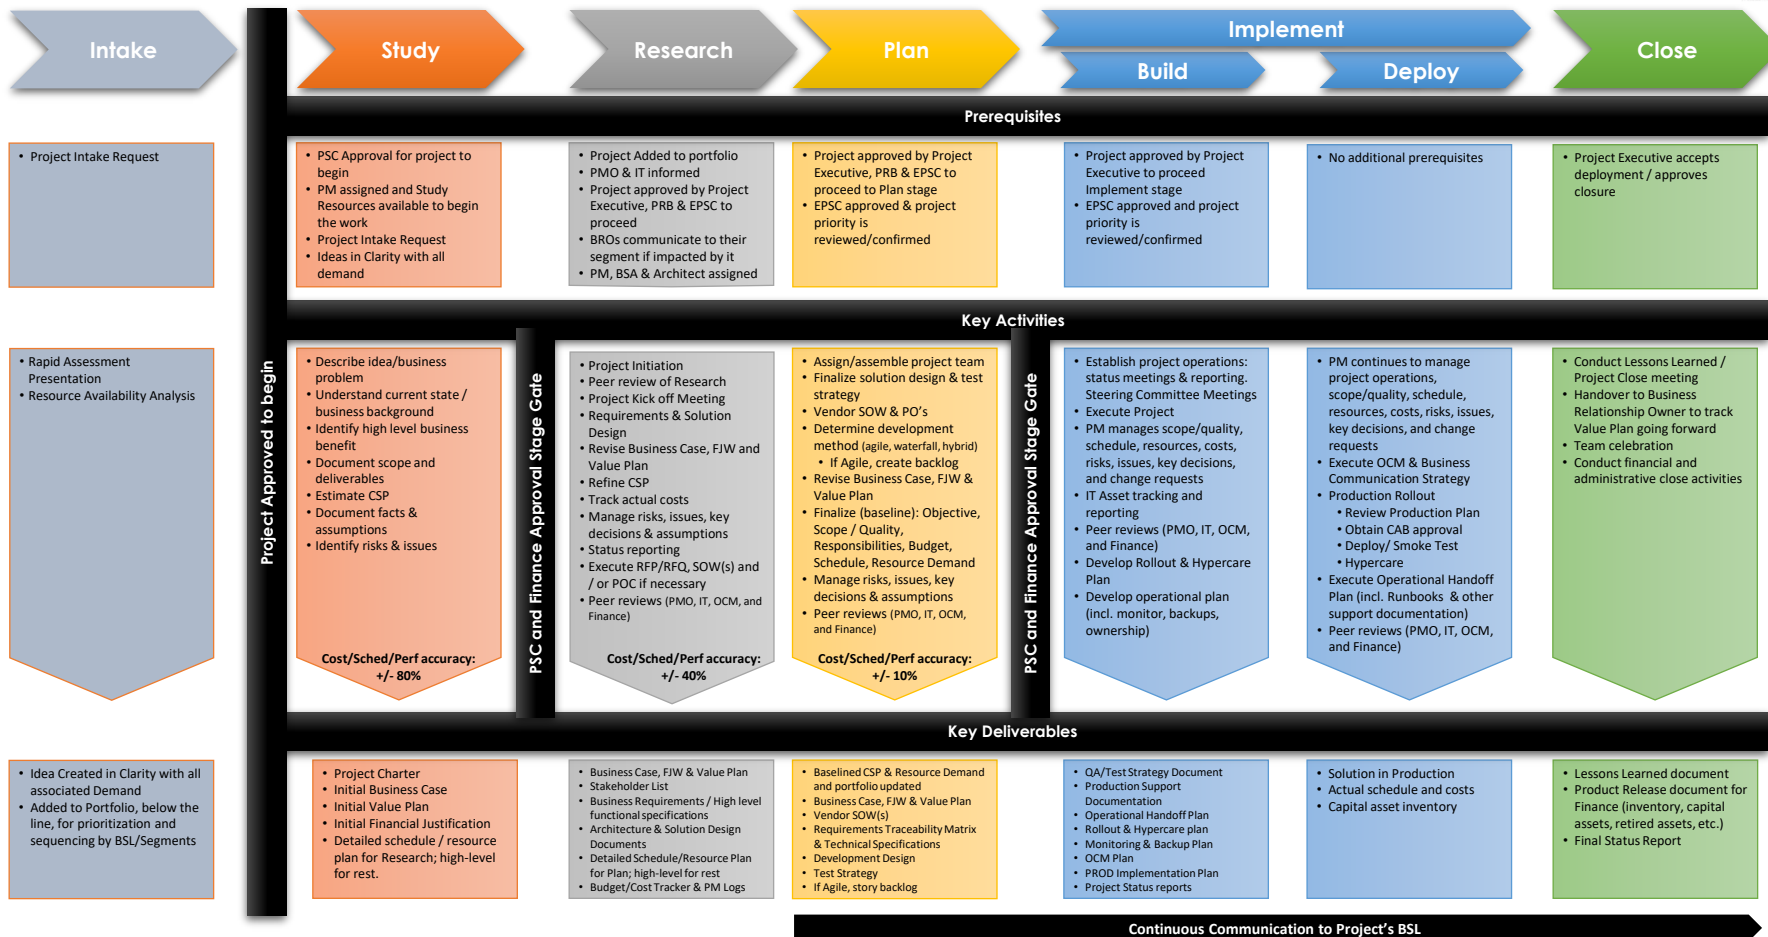

- Projects will be approved to start, when the Project Manager is in place, and not over allocated, and the Project Executive, Business Owner and technology Owner are available. Also:
  - The first two weeks will be spent on obtaining resource commitments, ensuring no over allocations and completing a schedule for the Study Stage.
  - The stage's committed finish date is due 10 business days after the start of Study.
- **All** projects will follow DT standard approval processes for:
  - IT VMO, Corporate Procurement & Legal
  - IT Stage Gates (see appendix)
  - Corporate Finance
  - EPSC or SPSC
- Changes to Project Scope, Schedule and Budget must be approved by Project Executive, CFO and the appropriate PSC.

# APPENDIX
