

# SHIPPING DECISION TREE

## 1 - DROPSHIP

### & PRIMARY DC

*Ships Out Same Day*

-Drop Ship- 1a  
Follow *~Best Practice~* to run "Better" and "Best" product though the Hub. Optimal Shipping Location (OSL) will determine the best ship from location for the customer.

-Primary DC- 1b  
Use if tire brand is not available for drop ship or if product is listed in OSL as "sell from DTD as long as available from primary".

## 2 - INBOUND SHIPMENTS

### & SECONDARY SUPPLY

*Can Ship Out W/in 1-3 Business Days*

-Inbound Shipments- 2a  
Using the Hub, check all scheduled inbound shipments into the primary DC. Waiting for this product is often faster and more cost effective then shipping from a non-primary DC.

-Secondary Supply- 2b  
Use approved Local inventory only when ordering product into the primary DC. Approved Local inventory will display as \$0.00. We pay the displayed price if there is any wholesale cost associated with the product.
