

## Okta User Layout and Interface - Overview

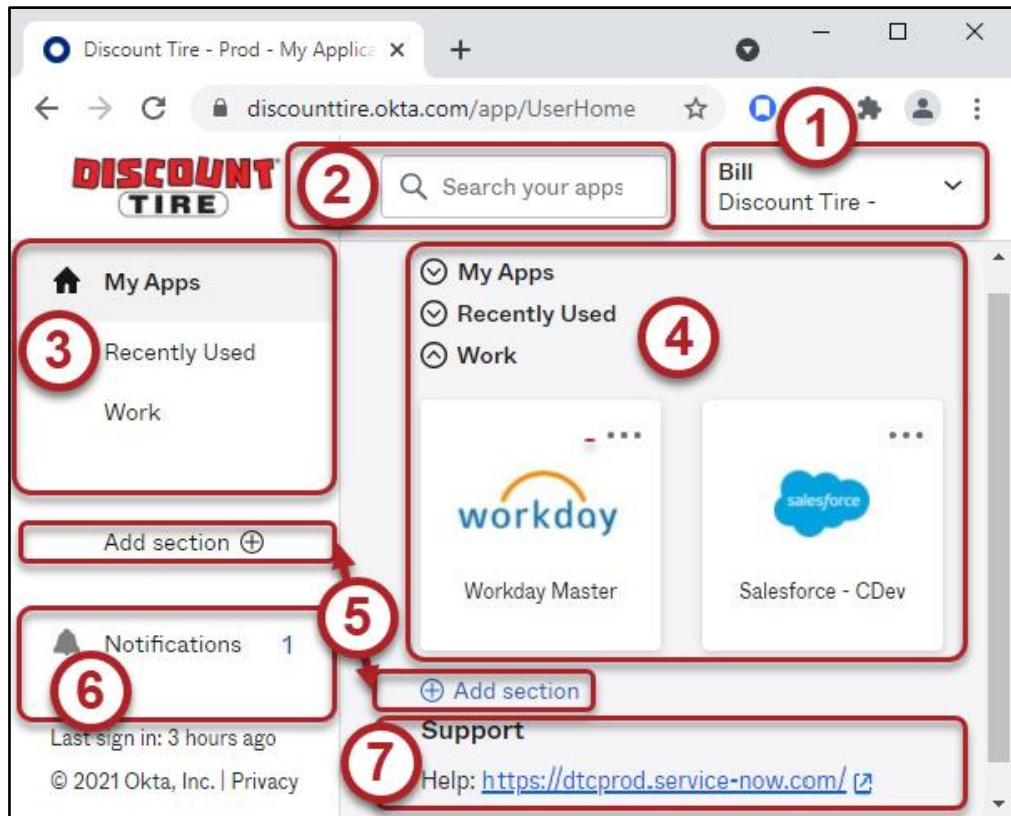

### Purpose

The purpose of this document is to identify the key navigation areas by showing the most common layout and user interface for the new Okta dashboard. This Okta dashboard layout and interface replaces the previous format for applications accessed through Okta prior to October 2021.

### Key Navigation Areas

The following list and accompanying screenshot identify and define the key navigation areas of the new Okta dashboard.

1. **Employee Name** and user information drop down
2. **Search your apps** search bar
3. **My Apps** vertical navigation side panel
4. Employee assigned **My Apps**, **Recently Used**, and **Work** sections
5. **+ Add section** to create custom user named sections
6. **Notifications** vertical navigation panel
7. **Support** contact information

### Customizable Add Sections

The **+ Add Section** function allows users to create customizable sections for a single-page app experience replacing Tabs. The side panel replaces the top navigation.

### Contact

If you have questions or need help regarding the Okta dashboard, please contact the Information Center at 800-366-4399 or [support@discounttire.com](mailto:support@discounttire.com).
