

Preparation

- Print this guide.
- Once the learner has completed the course (approx. 15 min.), take them to a changing station that is not being used by a workcell.
- Your goal is to provide context and reinforce the information provided in the course.
- If you are unfamiliar with any of the course content, please revisit the module for clarification prior to conducting this mentorship session.

Discussion

After the module, discuss:

- | | |
|---|---|
| <input type="checkbox"/> Cleaning the mounting surface | <input type="checkbox"/> Verifying bolt pattern match to vehicle |
| <input type="checkbox"/> Verifying that tire and wheel diameter match | <input type="checkbox"/> Replacing valve stem/rebuild TPMS every time |
| <input type="checkbox"/> Installing a valve cap on all valve stems | <input type="checkbox"/> Lug seat and base of lug must match |
| <input type="checkbox"/> Using hub rings | <input type="checkbox"/> Hub extensions, lug adapters, or wheel spacers |

Demonstrate

- ☐ Show different types of TPMS and valve stem
- ☐ Show different types of lug nuts, wheel locks, hub rings, and wheel accessories
- ☐ Identifying wheel stamp and wheel box labels

Practice

(minimum reps)

<input type="checkbox"/> Identifying sections of a wheel	X1
<input type="checkbox"/> Locating wheels and accessories based on work order information	X10

Requirements for Certification

This course requires completion of:

- ☐ eLearning
- ☐ Assessment
- ☐ Observation
