

Preparation

- Print this guide and the Best Practices.
- Once the learner has completed the course (approx. 30 min.), take them to an inflation station that is not being used by a workcell.
- Your goal is to provide context and reinforce the information provided in the course.
- If you are unfamiliar with any of the course content, please revisit the module for clarification prior to conducting this mentorship session.

Discussion

After the module, discuss:

- | | |
|--|--|
| <input type="checkbox"/> Importance of following safety procedures while inflating tires | <input type="checkbox"/> Cannot be in path of vehicle when it is running |
| <input type="checkbox"/> PPE (Personal Protective Equipment) | <input type="checkbox"/> Blast zones and inflation guidelines |
| <input type="checkbox"/> Do Not Inflate or Service BP | <input type="checkbox"/> What to do if tire will not seal |
| <input type="checkbox"/> Show common tire conditions (poster and live examples, if possible) | <input type="checkbox"/> Verify no leaks once inflated |

Review Best Practices

[What We Can Service](#)

[Bead Will Not Seal](#)

[Bead Will Not Seal](#)

[Core Process – Seal, Seat, Set](#)

[Loose Assemblies](#)

[Spare Tires](#)

[Tires on the Vehicle](#)

Demonstrate

- | | |
|---|--|
| <input type="checkbox"/> Seal, Seat, Set on low profile assembly | <input type="checkbox"/> MAST air gauge |
| <input type="checkbox"/> Seal, Seat, Set on standard assembly | <input type="checkbox"/> CSL Air Pressure Calculator |
| <input type="checkbox"/> Seal, Seat, Set on large truck assembly | <input type="checkbox"/> HTS tool |
| <input type="checkbox"/> Autoflate device functionality and features (cage and air check) | <input type="checkbox"/> CR-Kit |
| <input type="checkbox"/> Functionality of inflation pedal on changer | <input type="checkbox"/> On-the-vehicle inspection |

Practice

(minimum reps)

| | |
|--|----|
| <input type="checkbox"/> Perform Seal, Seat, Set on standard assembly | x5 |
| <input type="checkbox"/> Perform Seal, Seat, Set on large truck assembly (using bead blaster, if necessary) | x5 |
| <input type="checkbox"/> Perform Seal on low profile assembly using HTS tool | x5 |
| <input type="checkbox"/> Perform Seal on large truck assembly using CR-kit | x5 |
| <input type="checkbox"/> Inflate assembly over 40 PSI on Cage Autoflate | x5 |
| <input type="checkbox"/> Use employee vehicle: ID proper inflation pressure on placard and using CSL | x1 |
| <input type="checkbox"/> Use employee vehicle: check tread depth, injuries, signs of under-inflation | x1 |
| <input type="checkbox"/> Use employee vehicle: verify age and proper inflation of all assemblies (including spare) | x1 |

Requirements for Certification

This course requires completion of:

- | | |
|--------------------------------------|-------------------------------------|
| <input type="checkbox"/> eLearning | <input type="checkbox"/> Assessment |
| <input type="checkbox"/> Observation | |
