

Preparation

- Print this guide and the Best Practices.
- Once the learner has completed the course (approx. 25 min.), take them to a service bay that is not being used by a workcell.
- Your goal is to provide context and reinforce the information provided in the course.
- If you are unfamiliar with any of the course content, please revisit the module for clarification prior to conducting this mentorship session.

Discussion

After the module, discuss:

- | | |
|--|--|
| <input type="checkbox"/> Hand threading before using impact tool | <input type="checkbox"/> Proper torque levels |
| <input type="checkbox"/> Proper torque sequencing | <input type="checkbox"/> Proper body mechanics |

Demonstrate

- | | |
|---|--|
| <input type="checkbox"/> Hand threading before using impact tools | <input type="checkbox"/> Matching lugs with lug seat |
| <input type="checkbox"/> Proper body mechanics | <input type="checkbox"/> Installing hub rings |

Review Best Practices

[Installing the Assembly](#)

Practice

(minimum reps)

<input type="checkbox"/> Installing standard lug	X5
<input type="checkbox"/> Installing lug bolts	X5
<input type="checkbox"/> Installing dually	X5
<input type="checkbox"/> Installing mag shank	X5
<input type="checkbox"/> Identifying proper torque specifications	X10
<input type="checkbox"/> Achieving final torque using torque wrench	X10
<input type="checkbox"/> Installing center caps	X10
<input type="checkbox"/> Installing hub caps	X10
<input type="checkbox"/> Using proper body mechanics	X10

Requirements for Certification

This course requires completion of:

- ☐ eLearning
- ☐ Observation (Store Manager)
