

Installing Microsoft Intune to an Android Device

Introduction

Microsoft Intune is a mobile device management platform that enables you to work productively and securely from anywhere, at any time from a registered mobile device. This QRG will walk you through how to download of the Microsoft Intune Company Portal app to your Android mobile phone or device. Note:

- The Microsoft Authenticator app must be downloaded and enrolled/setup to use Microsoft Intune and other company software. For instructions, refer to the [Setup Microsoft Authenticator QRG](#).
- You will be prompted to setup a 6-character passcode on your device if that is not set.
- 2 profiles "Personal" and "Work" will be created.

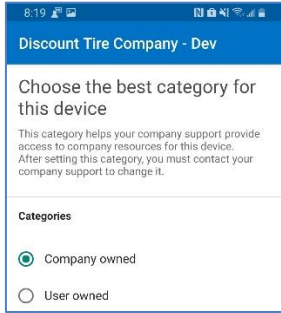

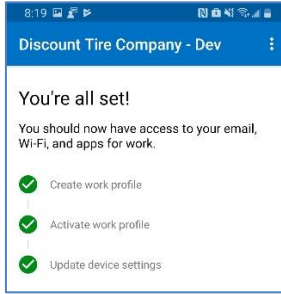

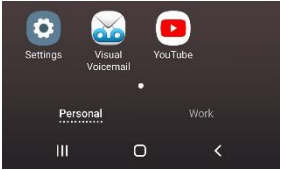

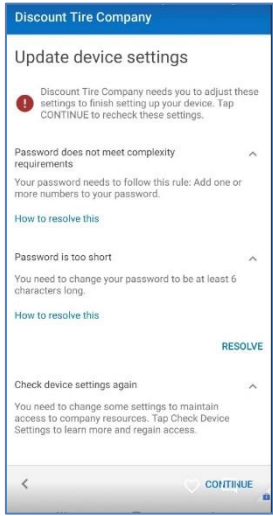

Installing Intune Company Portal

Step	Action	
1	On your mobile device, install the Intune Company Portal app from the Google Play Store.	
2	Open the Intune Company Portal app on your mobile device and sign in with your Discount Tire User ID (email address).	
3	Next, enter your Password . You will be prompted for Multi-Factor Authentication.	
4	Click BEGIN when the Initial Setup Screen appears.	
5	Review the Discount Tire privacy settings and click CONTINUE .	
6	Click Agree on the Set up a work profile screen.	
7	Click CONTINUE to set up the profile. <i>This activates the work profile by registering the device.</i>
