EMERGENCY AND CRISIS MANAGEMENT DTU EXTENDED LEARNING

Emergency management and business continuity planning have been recognized as necessary to continued operational resiliency and success in both the public and private sectors. The NFPA 1600 standard is a description of the basic criteria for a comprehensive program that addresses disaster recovery, emergency management, and business continuity. These guidelines address stabilizing the restoration of the physical infrastructure, protecting the health and safety of personnel, and crisis communications procedures.

This course will provide you with an understanding of the basic criteria that addresses disaster recovery and emergency management, as well as continuous improvement of programs and plans, in accordance with the NFPA 1600 standard.

STORE DAMAGE PROCEDURES

To ensure the correct process for handling store damage incidents, the Facilities team has put together a Store Damage Procedures guide that walks you through the steps in:

- Reporting the incident (who to contact and who to communicate the incident to)
- Assessing the damage (i.e. structural integrity and inspection)
- Security issues (who to contact and how to proceed)
- Repairs to building (repairs and documentation)
- Contact list
