

LET'S GET YOU TAKEN CARE OF®

September 2022

Safe Driver Training Module

Who:

- ① Warehouse Drivers
- ② Fleet Service Drivers
- ③ ASAP
- ④ Company-Owned Vehicles
- ⑤ Employees Driving Personal Vehicles For Company Business

Why?

- 1 Increased Number of Vehicles
- 2 Increased Number of Drivers
- 3 Fatalities Within the Previous 12 Months

It's been a busy year for Transportation Safety...

Earlier this year, Warehouse Managers and designated employees completed a course called **“Train the Trainer”** and earned their Forklift Trainer certifications. Upon returning to their respective regions, they took the necessary steps to ensure all authorized forklift drivers received an actual forklift driver's license.

Transportation Safety has been making efforts to enhance safety and compliance for drivers and vehicles.

Now we will move to the next level of safety for forklifts and other warehouse vehicles...

MONTHLY SAFETY AWARENESS!

CONTINUE TO PAGE 2 >

Future of Transportation Safety

Approximately nine training modules concerning the safe operations of forklifts have been selected. Each warehouse forklift operator will be assigned the selected **“module of the month”** via DTU with 30 days to complete it.

Safe driving training modules from Samba Safety have been selected. Like forklift operators, each driver of a company-owned vehicle (**26-ft box truck; transit van; pick-up truck**) will receive a the monthly training module via their email address on record with Samba Safety.

The Transportation Safety Coordinator has lists of **all employees (by region)** authorized to operate a forklift or drive a company-owned vehicle.

We expect to begin this Transportation Safety Awareness as early as the **first Monday in September.**

Contact dtu_learning@discounttire.com for troubleshooting.

FEEDBACK ON THIS MONTH'S TOPIC

1. Did you find the information in the training module beneficial?
2. How do you plan to get your people more engaged in Transportation Safety?
