## SENTURY TIRE WARRANTY INFORMATION

### Exclusions Not Covered Under Sentury Tire Warranty

- Tires used on RVs (recreational vehicles), Motor Homes, Trailers, or tires used in commercial service.
- Tires that are used in a staggered application where tires on the back of the vehicle are a different size than those on the front.
- Any tire that has any brand information, sizes, or the D.O.T. identification numbers removed intentionally.
- Ride complaints after the first 2/32" of tread wear.
- Premature/irregular wear due to vehicle mechanical deficiencies.
- Failure to rotate the tires at recommended intervals.
- Road hazard damage including cuts, snags, bruises, punctures, tire repair, impact breaks, etc.
- Any tires on any vehicle that are registered and normally operated outside the U.S.
- Any damage from over/under inflation, tire overloading, fire, theft, and any defective mechanical condition of the vehicle.
- Any damage from incorrect tire mounting/dismounting/balancing, any incorrect tire application, water or any other material trapped inside the tire during tire mounting.
- Any racing or other misapplication of tire to improper road conditions.
- Environmental ozone or weather cracking after 60 months from tire manufacture date.
- Any accident, fire, chemical corrosion, tire alteration, vandalism, abuse, or running on a flat tire.
- Any tires worn beyond the tire bar wear indicators and less than 2/32".
- Uneven wear in which the tread groove difference is 2/32" or more across the face of the tire.
- Any loss of time or use, inconvenience, any incidental or consequential damage.
- Flat spotting caused by improper storage or brake lock.
