

Carry-In Tires

Tires (new or used) brought in by customers must meet the following service requirements:

**CRITICAL TO
SAFETY**

Tires Must **NOT**:

- Be part of any known recall or customer satisfaction program
- Have defaced or removed DOT #s
- Have more than three USTMA repairs
- Have any severe tire conditions (Stop Sign on Tire Conditions Poster)

**CRITICAL TO
QUALITY**

Tires must also meet the following Service Guideline Best Practices:

- What We Can Service
- Fitment Rules
- Tire Mixing

The Whys

- Tires brought in by a customer require a more thorough inspection. DT/AT does not know the history of this product as we would a new tire from our inventory
- Any indication that a tire may be damaged is reason enough for DT/AT to not put that tire into service
