Auto Integrate

Auto Integrate eliminates the need to call Fleet Management companies
for work order approvals within the POS.

⚠️ **CRITICAL TO QUALITY**	• Use Auto Integrate for designated Fleet customers. • Enter the VIN and all required vehicle details: Repair Comments, Mileage, Start Time, Promise Time, LF/RF/LR/RR (tread measurements) all three tread depths are required (inner, middle, and outside), and reason code from drop down for tire replacement. • Any additional services **MUST** be notated on the invoice.

The Whys

- As the market continues to evolve, fleet and ride sharing vehicles are becoming a larger consumer audience.

- Auto Integrate will help us Grow Responsibly by expanding and improving our services to fit the needs of the market.

- Auto Integrate saves time and speeds up the approval process.
