

## Repairing Michelin Self-Seal Tires

---

**Introduction** This procedure applies to all Michelin tires equipped with Self-Seal technology.

---

**Procedure** Follow these steps to repair all Michelin tires with Self-Seal technology:

Step	Action
1	Scrape the lining sealer away from the repairable area. 
2	Follow the normal repair procedures.
3	After the repair is dry, push the lining sealer back over the repair. 

**Contact** If you have any questions or concerns about this procedure, please contact Gary Ruede at [Gary.Ruede@discounttire.com](mailto:Gary.Ruede@discounttire.com) or 480-606-6261.
