Equipment Maintenance - Daily Checklist

Introduction This document is meant to be used as a visual reference alongside the Equipment Maintenance Daily Open/Close Checklist.

Air Check Station	
Action	Image
<p>Inspect the air chuck for grip using a valve stem. If it is loose, replace or rebuild as needed.</p> <p>Replace if damaged. Contact the 5S Assistant Manager to order replacement if needed.</p> 	
<p>Inspect electrical cords for damage.</p> <p>If damaged, contact the 5S Assistant Manager.</p> 	
Tire Cages	
<p>Inspect the air chuck for spring weakness and check it with a valve for grip.</p> <p>If it is loose or worn, replace it.</p> <p>Contact the 5S Assistant Manager to order more if needed.</p> 	

Tire Changer	
<p>Inspect the hoses for any air leaks. If you see a leak, repair it.</p> <p>Contact Maintenance for or Coats for repairs.</p> <div style="display: flex; justify-content: space-around; align-items: center;">   </div>	
<p>Inspect the air chuck for spring weakness and check it with a valve for grip.</p> <p>If it is loose or worn, replace it.</p> <p>Contact the 5S Assistant Manager to order more if needed.</p> <div style="display: flex; justify-content: space-around; align-items: center;">  </div>	
<p>Verify that the pressure limiter is operating correctly by stepping down on the pressure pedal and making sure that it pulsates.</p> <p>If it does not pulse, lock out and contact Coats.</p> <div style="display: flex; justify-content: space-around; align-items: center;">  </div>	

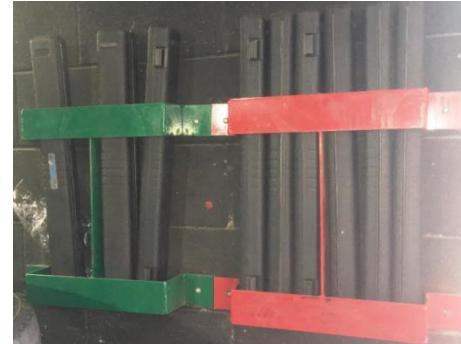

Balancing Station	
<p>Clean balancer threads and mounting face plate and oil the balancer shaft.</p> <p>Contact Hunter if damaged.</p> 	
<p>Check the wear of the wingnut by threading it on the shaft and attempting to move it side-to-side.</p> <p>If there is more than $\frac{1}{4}$" of movement, then replace.</p> <p>Contact the 5S Assistant Manager to order replacement if needed.</p> 	
<p>Inspect the wingnut handles for chips or missing bushings.</p> <p>Replace if damaged.</p> <p>Contact the 5S Assistant Manager to order replacement if needed.</p> 	

<p>Verify that the thrust bearing is present and spins freely.</p> <p>Replace if damaged.</p> <p>Contact the 5S Assistant Manager to order replacement if needed.</p> 	
<p>Inspect pressure cup for damage and verify that it is both present and spinning freely.</p> <p>Replace if damaged.</p> <p>Contact 5S Assistant Manager to order replacement if needed.</p> 	
<p>Perform a three-spin calibration.</p> <p>Contact Hunter if failure occurs.</p> 	

Tool Stands	
<p>Inspect torque stick for excessive wear/damage.</p> <p><i>During use, paint in this location (see arrow) will wear off in a circular pattern as this is the main stress point of the torque stick. When the metal in this area starts to show a discolored ring, replace the stick.</i></p> <p>Replace if damaged.</p> <p>Contact the 5S Assistant Manager to order replacement if needed.</p> 	 
<p>Inspect all sockets for cracks or excessive wear.</p> <p>Replace if damaged.</p> <p>Contact the 5S Assistant Manager to order replacement if needed.</p> 	
<p>Unplug the impact wrench and hang it in the end slot on the bay stand. Then, add several drops of air tool oil into the fitting and depress the trigger.</p> <p>To order air tool oil, contact the 5S Assistant Manager.</p> 	

Test all torque wrenches on the Validator for accuracy.

If you find that a torque wrench is inaccurate, remove it from service and replace it in the red return holder.

Repair Station

Make sure the buffers are oiled and trigger guards are present.

Replace if damaged or missing.

Contact the 5S Assistant Manager to order replacement if needed.

Inspect contour rasp for debris and grit.

Replace if worn or damaged.

Contact the 5S Assistant Manager to order replacement if needed.

<p>Inspect the carbide cutter for debris and sharpness.</p> <p>Replace if worn or damaged.</p> <p>Contact the 5S Assistant Manager to order replacement if needed.</p> <p></p>	
<p>Check dunk tank water for clear visibility.</p> <p>You should be able to see the bottom of the tank.</p> <p>Replace with new water as needed.</p>
