# POS Update – Q1 2023

Your store will receive an update for the POS. Please review this change with your team.

<mark>**Important:** Keep your workstations powered on so they can receive the update.</mark>

- **VTV Select button relabeled** – The button is now **VTV / Air Check Select**.
- **Twinquiry default sort**– sorts in ascending order by retail price for Y'd in stock or in-stock items.
- **Removed DTD stock quantities from Territorial Stock** – go to SHOP for this info.
- **Approved amount displays for credit applications** – The DT Card credit approval amount now displays on the customer screen.
- **Cross-store BOPIS refund** – displays new message.
- **Auto Integrate fix for wiper blades** – An issue has been resolved that prevented Auto Integrate from processing wiper blade authorization requests. No workaround is needed.
- **Auto Integrate Company Name** – Sometime in April, you will notice that the Company Name for Auto Integrate customers auto-populates in the POS. This is a Fleet department request to identify these customers.

VTV / Air Check Select button	**Twinquiry default sort**
The VTV button has been relabeled.	Twinquiry no longer uses purchase decision for sorting. Now the default sort is by retail price, in ascending order, for products Y'd in stock or in-stock. Select "**Show All Product**" to display all articles in the same sort order.
DTD stock quantities removed from Territorial Stock	**Approved amount displays for credit application**
Accurate DTD stock quantities are maintained in SHOP. They haven't been accurate in Territorial stock for a while, so are being removed entirely.	The amount of credit approved for the customer for their Discount Tire card now displays on the customer application screen.
Cross-store BOPIS refund message	**Auto Integrate wiper blade fix**
This message displays when looking up a Cross-store BOPIS refund from Customer History Refund Tab.	An issue that prevented Auto Integrate from processing wiper blade authorization requests has been corrected. The workaround is no longer needed.

Company Name auto-populates for Auto integrate customers
Coming soon: To help the Fleet Team identify Auto Integrate customers, the Company Name will auto-populate for the Auto Integrate transaction, instead of the Fleet Company name.

IF YOU NEED HELP contact the Service Desk at 800 366-4399 or email Support@discounttire.com.
