### Auto Integrate Fleet Transactions

You have an option to convert any fleet Auto Integrate transaction into a quote while you wait for approval. This avoids inconvenience in situations where approval may be delayed. After approval is received, you can open the quote and finish the transaction. By doing this, you avoid sending a cancellation to Auto Integrate, don't need to keep a screen open, and won't need to rekey the transaction later on.

**Note:** If Auto Integrate does not approve a transaction, do not cancel it and rekey. Review **Rates and Rules** information, make edits to correct any errors and fill in all required information, and resubmit.
